Dr. John W. Sleasman, MD

Dr. John W. Sleasman, MD
Robert A. Good Professor and Chief
University of South Florida
College of Medicine

Dr. Sleasman holds the Robert A. Good Endowed Chair of Immunology, and is Chief of the Division of Pediatric Allergy, Immunology and Rheumatology at USF. He is also the medical director of the Children's Research Institute Immunodiagnostics Laboratory at All Children's Hospital.

Dr. Sleasman is an internationally recognized expert in immune deficiency diseases, with over 100 publications. He is active in HIV research in children and adolescents, and heads the Therapeutics Leadership Group for the Adolescent Trials Network sponsored by the National Institute of Child Health and Human Development. His past honors include being the recipient of the Clinical Scientist Research Award from the University of Florida and the Silver Award for Outstanding Research in Pediatric AIDS from Children's Hospital of Philadelphia. In 2007, Dr. Sleasman was selected as chairman of the AIDS Immunology and Pathogenesis studies for the Center for Scientific Review at the National Institutes of Health. In 2008 he received the Tampa Bay Business Journal's Health Care Heroes award for Health Care Innovation and Research. He has been selected as one of America's Top Doctors by Castle Connolly Medical Limited. Dr. Sleasman is a member the American Pediatric Society and past president of the Southern Society for Pediatric Research.

INFORMATION ABOUT THE ORGANIZER, MEDICAL CHAMPION LLC

Medical Care Advocacy is a new concept in healthcare. An individual, family or company may hire a professional medical practitioner to champion one's health whether healthy or needing immediate guidance with an acute situation or chronic illness. With the ever changing healthcare environment, medical advocacy is becoming necessary for individuals to effectively navigate for the best possible care. The advocacy offered augments the advice from your medical provider and allows professional, confidential and unbiased representation of you, your family members or your employees. In addition, Medical Champion organizes medical symposia and public seminars regarding hot topics impacting our health. For a free consultation or information on how a Medical Champion can help you, call (813) 944-2558 or visit www.medicalchampion.com.
